

Product Line Card

Specializing in Customized HVAC and Renewable Energy Solutions

Brant Radiant Heaters design and manufacture **Infrared Heaters** and process burners.

The name **Re-Verber-Ray** is today's most trusted and well-known name in infrared heating equipment.

HVAC: Wireless 24 Volt Thermostat with LCD, Intelligent Thermostat, HVAC Setback Module, Occupancy Sensor, Room Control Module, Wireless Key Card,

Battery Free Sensors:

Wireless Occupancy Sensor, LUX & Occupancy Sensor, Contact Temperature Sensor, Air Duct Temperature Sensor, Temp/Vent Control, Combined Sensor, Wireless Smoke Alarm, Wireless Window Sensor, Outdoor Light Sensor,

Replacement thru-the-wall chassis.

Commercial kitchen ventilation systems.

New / Replacement Commercial / Industrial

Plate Fin Heating & Cooling Coils, Dry Coolers, Air-Cooled Condensers, Heat Pipe Air-to-Air Heat Exchangers.

Custom HVAC: Industrial & Institutional

Heat Recovery, Cooling, Direct and Indirect Make-up Air Units, Industrial Scrubbers, Desiccant Dehumidifiers

Commercial and Industrial finned tube heat exchangers and custom engineered refrigeration and heat transfer equipment for a variety of applications.

Patented T9000 **wireless** programmable thermostat design providing unique **retrofit options**.

Commercial and Residential

Thru-the-wall Replacement Air Conditioners, Heat Pumps, Water Source Heat Pumps, and Gas Fired Units.

High Volume Low Speed (HVLS) Fans are specially designed fans with leading edge STOL technology.

HVAC, Industrial & Process Coils, Hot Water Duct Coils, Standard Fan Coil Units (200-2000 CFM), Horizontal Large Units (CFM), Vertical Units, Vertical Wall Recess (VWB), Vertical Fan Coils Utility/Closet (400-2200 CFM), Replacement Tube Bundles and Heat Exchangers, Rooftop Air Handlers, Belt Drive Air Handlers (800-12000 CFM), Central Station Air Handlers (1500-50000 CFM), Fluid Coolers
