Colmac Coils — Custom Engineered Solutions

Specializing in Customized HVAC and Renewable Energy Solutions

**Heating and Cooling Coils
For Any Working Fluid
or Environment**

**Heat Pipes
For Heat Recovery**

**Dry Coolers
For Glycol or Gas Cooling**

**Baudelot Coolers
For Cooling Liquids to Near
Freezing**

**Aircoil Evaporators
For Industrial and Process
Room Applications**

**Air Cooled Condensers
For Ammonia, Halocarbons,
Hydrocarbons**

ARI-410, UL508, ASME Sec. VIII, Canadian Registration Number, Canadian Standards Association

CRN

CSA

For over 35 years, Colmac Coil has delivered quality, value-added engineering, leading edge technology, flexible production capacity, and individual customer attention. Innovative custom engineered solutions to commercial and industrial HVAC/R applications include plate fin heating and cooling coils, heat pipe air-to-air heat exchangers, heat pump water heaters, fluid coolers, air-cooled condensers, unit coolers, and custom evaporators.

CDT Inc. is pleased to offer the Colmac array of custom product solutions in Ontario.
